

# POS News

The Palomar Orchid Society is a non-profit organization dedicated to promoting the understanding and cultivation of both hybrid and species orchids. We welcome members of all levels to join us for orchid fun and learning! Our mission is to promote interest in the appreciation of orchids and to provide an opportunity for their display and the exchange and dissemination of information relating to their culture.

## The Orchids of the Machu Picchu Sanctuary in Peru

### Betty P. Kelepecz

Betty has been an orchid hobbyist in Southern California for going on 30 years. She has grown orchids in Long Beach and Huntington Beach, and, since 2003, in the Point Loma area of San Diego. Betty

started raising orchids in the early 1980's when her husband and co-orchid grower Steve brought home a discarded cutting/keiki of a red *Epidendrum* he found in a trash bin in the alley beside their home in Long Beach. He planted the unimpressive and bloomless cutting on a moss-covered rock and confidently predicted that it would bloom beautifully in no time. When the *Epidendrum* actually did bloom and, in fact, never since has stopped blooming, the disbelieving Betty became an orchid enthusiast and both of their collection of orchids has since grown with the unwavering passion so often accompanying that first orchid discovery.

Betty and Steve grow a large selection of predominantly species orchids. Their more than 800 plants grow outside, in a small greenhouse, and in a recently constructed shade structure. Betty enjoys the challenge of replicating the demanding environments required by species orchids and particularly enjoys the challenge of growing Pleurothallids. Over the last few years she has become a successful *Masdevallia* and *Dracula* grower.

Betty began growing Pleurothallids after she joined the San Diego County Orchid Society in 2005 when she was informed by several members that her home in Point Loma was a good environment for growing her favorite but not yet successfully grown orchid, *Masdevallia veitchiana*. She was also encouraged to join the Society's Species Group.

As a result, Betty began growing *Masdevallias* outside in her yard, under a small

**continued on page 4**

***Masdevallia ignea* 'Windflower'**  
This beautiful specimen grown by Betty Kelepecz received an AM-AOS award.

## PRESIDENT'S MESSAGE

*Well folks, summer has passed, and we're now into the fall and winter holiday season again. Hope everyone is having a wonderful and safe Halloween time and great orchid growing. Now on to business...as was mentioned at the last meeting in October, we have two voting activities coming up. First, if you haven't put in a nomination for Member of the Year for 2011, please do so promptly by email or phone to myself or to Sandi Sandquist. The Member of the Year will be announced at the holiday party in December.*

*Also, I want to put out a personal plea to all members to please consider a position on the board. We still have several vacancies that need to be filled and the tasks have been compartmentalized to limit the time commitment for each. Please discuss with our nominating committee members, Helge Weissig and Elf Mitton if you have questions about the positions or would like to volunteer for a position.*

*Also, I want to announce the transition of Newsletter Editor from Melana Davison to Helge Weissig. The board wishes to thank Melana for her years of dedication and service to POS in holding this position and for her excellent, informative and colorful newsletters. We wish her and Jim Davison the best in life, family and orchid growing, and please visit us anytime. And thanks to Helge Weissig for assuming the role of Newsletter Editor.*

*Hope to see you at the next meeting! Happy Growing!*

*Gil Ho  
President, POS*

## Caravan: Don Rosenstock's Home

*Join us for a visit of Don Rosenstock's home on Saturday, November 19, 2011.*

For our last caravan of the year, we will go to Don Rosenstock's home in Valley Center. He grows numerous *Cattleyas* and *Dendrobiums* in his greenhouse, in-

cluding plants he has collected during his world travels. You will enjoy seeing his tropical garden, the large koi pond, and the Japanese garden at the back of the property. From there, you can enjoy an unobstructed view of nearby mountains.

Don will also have plants for sale. Call Debra at (760) 726-7763 and let her know if you plan to attend.

This is a visit you won't want to miss!

## Board Elections

*With All Hallows soon behind us, it has also become time again to elect the Officers of the society as stipulated by the by-laws. Accordingly, a nominating committee was appointed by our President Gil Ho at the October general meeting.*

The nominating committee members for the 2012 board elections are Elf Mitton and Helge Weissig. For most of the positions mandated by the bylaws, the current office holders have agreed to serve another year if elected: President (Gilbert Ho), First Vice President (Alex Nazdan), Second Vice President (Debra Funakoshi), Third Vice President (Renee Daly), Treasurer (Christina Hsing), Secretary (Lena Shiroma), and one of three trustees to be elected (Merle Robboy). This leaves the two additional Trustee positions to fill. Renate Schmidt has graciously agreed to continue to serve as trustee if elected and any additional candidates will be announced at the meeting.

Due to the shortened time table, we will also be looking for nominations from the floor for all positions at the general meeting. Trustee duties are typically fairly light, but the other officers are looking to them for help with their responsibilities. Particularly, Renee will need help with membership, Alex with coordinating the speakers and raffle donations, and Lena with correspondence (for example sending out Thank You notes). In addition, there are the du-

ties that would fall to the positions of event coordinator (volunteer sign-up sheets for fairs, events, and help with the holiday dinner) and publicity (sending ads for events and general advertising).

## Member of the Year Award

*The Member of the Year Award will be voted on at the next meeting.*

Each year we honor the member that made the greatest current contribution to the success of Palomar Orchid Society. At our upcoming meeting in November we will be placing our votes for this honor. All current members are eligible except for last year's winner -- Sandi Sandquist.

Ballots will be available for voting at the November meeting. Please come to the meeting to vote for the Outstanding Member of the Year. The winner will be announced and the award will be presented at the Holiday Party in December.

*Casa de Las Orquideas*

**Remember!**

**Our Annual Open House**

December 3 & 4, 2011 9AM to 4PM

7000 new cymbidium seedlings  
in 3" pots

Thousands of cymbidiums and Zygos in spike  
over 150 different crosses

Many divisions of our show and breeding plants

20 different Valley Orchids Meristems  
in 3" pots

45 different cymbidiums meristems from our lab  
in 3" and 6" pots  
Many in spike!

Quantities may be limited!

We will be joined by  
**Andy's Orchids**  
and others!  
**Come visit us!**

MUSEUM: \$10 ADULTS, \$7 SENIORS & AGES 13-17, \$6 AGES 3-12

INFO: FMORCHIDS@HOTMAIL.COM OR WWW.ORCHIDSB.NET

**Water** is critical for these plants because they have minimal water-storage tissue. Roots should be allowed to become almost dry before watering again; if drainage is adequate, constantly moist roots are fine. Good-quality water low in dissolved solids is imperative for success.

**Humidity** is an important factor in the successful culture of *Masdevallias*. The ideal range is 60 to 80 percent. In the home, set the plants on trays of gravel partially filled with water. In the greenhouse or enclosed growing area, humidity can be increased by use of a humidifier, while evaporative coolers help raise humidity and lower temperatures. If plants are summered outdoors, automatic misters under the benches are recommended as is more frequent soaking.

**Fertilize** regularly with a dilute solution while plants are actively growing. Applications of 30-10-10-type formulations twice a month are ideal for plants in a bark-based medium. A 20-20-20-type formulation should be used for plants in other media. If weather is overcast, applications once a month are sufficient.

**Potting** is best done in the winter or early spring, before the heat of summer arrives or as new roots are produced. Plants must be repotted frequently, every one to two years, before the potting mix decomposes. A fine-grade potting medium, such as fine fir bark or tree-fern fiber, is often used with plastic pots. Sphagnum moss is also used, especially for establishing plants. The plant should be positioned in the pot so that the newest growth is farthest from the edge of the container, allowing the maximum number of new growths without crowding the vessel. Plants growing in many directions may be positioned in the center of the pot. Spread the roots over a cone of potting medium and fill in around the roots with potting medium to the junction of the roots and the plant. Firm the medium around the roots.

Keep humidity high and the potting medium slightly dry until new roots form.

## Masdevallia Culture

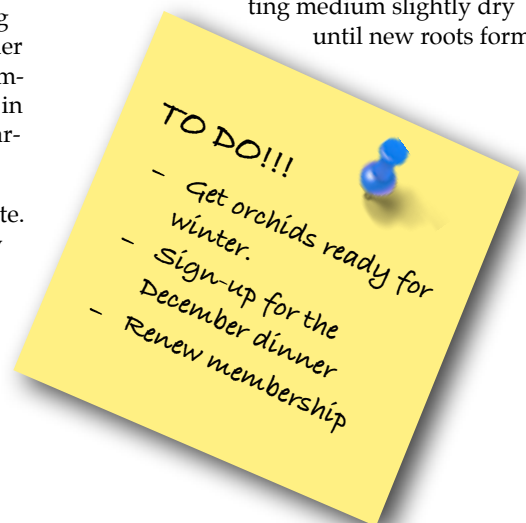

The following is the *Masdevallia* web culture sheet available at [www.aos.org](http://www.aos.org). Most *Pleurothallids* require similar conditions.

*Masdevallia* is a genus of some 350 species usually from cool, misty mountains of the New World Tropics. *Masdevallias* are best known for their showy flowers consisting of sepals fused into a tubelike structure. Their origins in cool, damp environments make them an excellent choice for cool or coastal climates. Most species and hybrids are compact enough so that they can be easily accommodated on window-sills or under lights.

**Light** should be like that given for *Phalaenopsis* and *Paphiopedilums* —1,000 to 1,500 foot-

candles. *Masdevallias* can be kept in light intensities up to 2,500 foot-candles if the growing area can be kept cool. Plants grow well under standard fluorescent fixtures and can be summered outside in shade. In the home, place in an east or shaded south window or under artificial lights.

**Temperatures** should be cool to intermediate. The plants will grow slowly and eventually expire if temperatures remain high for long periods. Cool evenings help reduce heat stress during the day. Nights of 55 to 60 F are ideal; day temperatures should be 65 to 75 F. Evaporative cooling pads or humidifiers are useful in maintaining these conditions. Avoid day temperatures higher than 80 F.

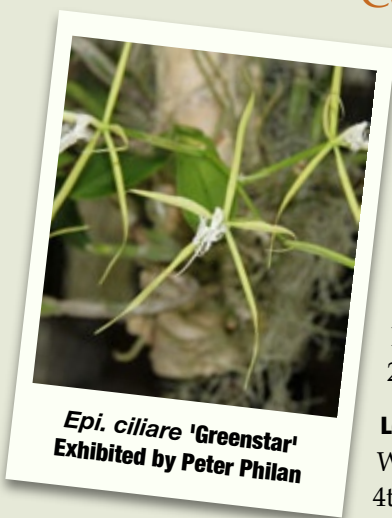

## October Judging Report

There were 2 orchids presented for judging and one was awarded.

**Rth. Jungle Jumbalaya 'Arnilicious'**  
Exhibited by Arnie Gum  
Awarded HCC/AOS 76 points

**Epi. ciliare 'Greenstar'**  
Exhibited by Peter Philan

## Concerning Judging Sessions

The Pacific South Judging Center conducts each month three judging sessions in the Los Angeles and San Diego area. They are:

### San Diego

Balboa Park, Casa del Prado, room 104  
1st Tuesday of the month at 6 pm

### San Marino

Huntington Botanical Gardens  
2nd Saturday of the month at 10 am

### Long Beach

Whaley Park  
4th Saturday of the month at 7 pm

Visitors, with or without plants, are welcome anytime. If a member of the POS wishes to have flowering plants judged at one of these sessions but is unable to take the plants to the judging facility, please contact one of the following AOS judges:

- Rohrl, Helmut (La Jolla)  
(858) 452-0976
- Tuskes, Ann and Paul (Clairemont)  
(858) 274-5829

Text and photos by Phyllis S. Prestia Ed.D.

## Betty P. Kelepecz cont.

overhang that partially shaded the side patio area of the house. This particular location has become a perfect micro-climate for shade-loving, cool-growing orchids and Betty's *Masdevallia* collection has since grown to 150 plants, almost all of them species. In addition, she grows more than 60 species of *Draculas* and several of her *Masdevallias* and *Draculas* have been awarded American Orchid Society awards.

**Oncidium Twinkle - Betty's plant has won several awards, the latest at the SDCOS Winter Show in January. This cross will grow outdoors year-round in many areas.**

In recent years, Betty has established a small but quite functional orchid flasking lab in her home where she has been hobby flasking and raising predominantly species orchids for about three years.

Betty's talk will be a combination travel log/orchid talk about the orchids of the

Machu Picchu sanctuary in Peru where many of her favorite orchids are endemic. Betty will also conduct this month's culture class starting at 6:30 pm. She will speak about growing *Masdevallias* and *Draculas* and other cool-growing *Pleurothallids*.

December 7, 2011 - 6 pm*

*5 course dinner, \$25.00 per person (includes blooming orchid plant)  
Must RSVP and pay by November 30 • Linda & Pat Rusnell • (760) 725-1471*

**Dear POS Members:**

It has been my honor and pleasure to have prepared the newsletter for POS for over ten years. Jim and I have fond memories of our time on the Board and as active mem-

bers in the society. And doing the newsletter for the past five years from Miami, we kept in touch with all the goings on of the society even from afar.

The time has now come to turn over this duty to Helge. And it is obvious by this

issue, he is a fine choice to carry on the high standards that you have come to expect in a newsletter.

I would like to thank Sandi Sandquist for always making sure everyone turned in their appointed articles to me, Renate and Alex for supplying speaker info, Renee for keeping me informed with new members and refreshment duties, Gil for his President's message each month, Debra for her wonderful photography talents, and Phyllis for monthly judging center photos and info. These people faithfully supplied information I needed to pull the newsletter together.

It is sad to let something go that I have been involved with for such a long time,

but a new chapter in our orchid life is requiring more time from us. We were recently promoted to AOS Probationary Judges, and as such, expect to do more traveling to orchid shows, especially internationally. We will be judging our first out of country orchid show in Coban, Guatemala at the end of November and are very excited about this new adventure.

Our door in Miami is open to any Palomar member, so please let us know if you are in the area. Thank you all for being such wonderful orchid friends!

*Melana Davison*

# Gem's From The Last Meeting

**B/c. Dewy Forest 'Kudos' - Merle Robboy**

**C. bowringiana var. coerulea 'Blue Angel' AM/AOS - Alex Nadzan**

**B/c. Copper Queen - Cher Whelan**

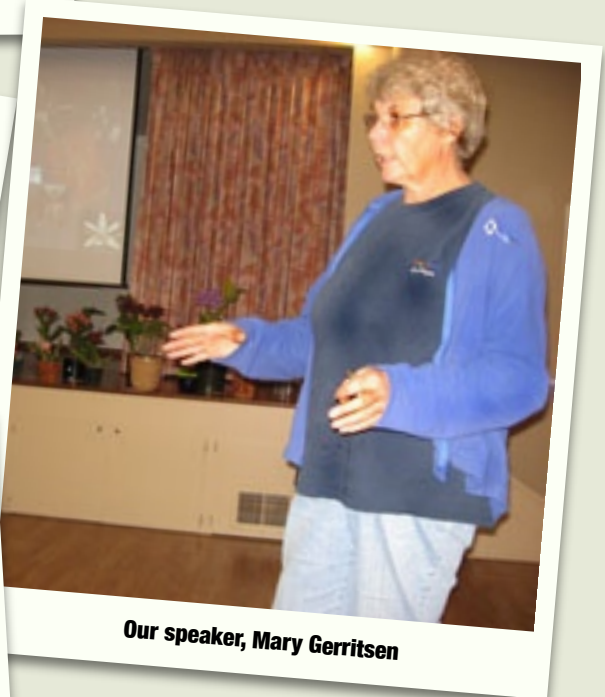

**Dtps. Jiaho Kitty Face 'Rainbow' - Merle Robboy**

**Npp. Kathleen - Alex Nadzan**

**Culture Class speaker, Peter Ngyen**

**Our speaker, Mary Gerritsen**

*Photos by Debra Funakoshi*

## Meeting Wrap-up

Mary Gerritsen presented a very engaging travel report from her 2009 trip to the states of Sabah and Sarawak on Borneo. Her presentation followed a culture class by Peter Ngyen, who spoke about his success growing Cattleyas and almost all his other orchids in a medium made up of four parts charcoal, four parts perlite, and one part peat moss. Many thanks to both speakers!

A warm welcome also to our guest Carol Ann Dentz who attended the meeting.

## General Meeting Information

The Palomar Orchid Society meets the **FIRST WEDNESDAY** of every month at the Carlsbad Women's Club, 3320 Monroe, Carlsbad.

Go east off 5 on Carlsbad Village Drive 1/2 mile to Monroe, turn South on Monroe to Women's Club. OR go west off El Camino Real at Carlsbad Village Drive to Monroe and turn

south to the Women's Club. Culture Class starts at 6:30 pm. The regular meeting begins at 7:00 pm. The next regular meeting will be on January 4, 2012. The annual dinner and installation of the POS officers will be held December 7, 2011.

# San Diego International Orchid Fair

**Angraecum Longiscott 'Lea' AM/AOS - Jerry Spencer**  
**Best of Section Orchid Specimen; Best Amateur Cultural Award; First place, Orchid Specimen Plants**

**Ansellia africana 'Waunakee' AM/AOS - Loren Batchman**  
**First place, Orchid Specimen Plants**

**C. Laurie Lynn Westenberger - Phyllis Prestia**  
**First place, Cattleya Alliance Hybrids - Standard Cattleya Hybrids**

**C. Chocolate Drop 'Volcano Queen' - Alex Nadzan**  
**First place, Cattleya Alliance Hybrids - Compact Cattleya Hybrids**

**Sophronitis perrinii 'Nitz' - Anita Spencer**  
**Best of Show; Best of Section - Orchid Species; First place, Orchid Species**

**B/c. Greenwich 'Elmhurst' AM/AOS - Lena Shiroma**  
**First place, Cattleya Alliance Hybrids - Compact Cattleya Hybrids**

**Phyllis Prestia, Anita Spencer, Elf Mitton and Gil Ho manning the POS booth**

**C. Caudebec - Jerry & Anita Spencer**  
**First place, Cattleya Alliance Hybrids - Standard Cattleya Hybrids**

**Cymbidium dayanum - Warren Stehle**  
**Third place, Orchid Species**

## Miscellaneous

### Holiday Party Reminder

Please make sure to bring your check book and sign-up for the Holiday party at the November meeting. The deadline for RSVP and payment is November 30. **No tickets will be sold at the door!** The per-person price of \$25 includes a 5 course dinner at Chin's Szechwan in San Marcos on December 7 starting at 6 pm as well as a blooming orchid plant. Come and have good food and good times!

### A New Format for "Show and Tell"

Starting with the November General Meeting, Merle Robboy will be conducting the "Show and Tell" before the plant table raffle. His knowledge and long years of experience growing a large variety of orchids will make this a very educational and entertaining part of the meeting! In addition, the main speaker will be asked to award a "Best in Show" ribbon to the plant showing the highest degree of horticultural care.

### POS Online News

The new website has been up and running smoothly for a couple of months now. Many thanks to Debra Funakoshi, Sandi Sandquist, and Gil Ho for their content contributions. If you have not visited [www.palomarorchid.org](http://www.palomarorchid.org) lately, come by for a visit. In addition to a new look there have been a few other changes. For example, the site now allows for comments and user-contributed content and we are looking to add more in the future!

Recently, the online presence for the society was expanded with the addition of a FaceBook page and a flickr group. If you use either site, come and find us. There are prominent links on the website to both social media sites. Once you 'like' us on FaceBook, you will receive notifications of website updates automatically. And if you enjoy taking pictures of orchids, please contribute them to our flickr

## Snacks & Refreshments

This month, all members with last names beginning with **C, D, E, F** and **G** share at break time!

We appreciate everyone's effort in supplying our meeting with goodies. It makes for a great meeting all around!

Thank you!

group from where they will be featured on the POS website.

### Member Caravans

The idea has been brought up a few times before: why not organize caravans to POS member's homes to learn how they are growing their orchids, to get to know your fellow society members better, and to share a relaxing weekend afternoon? If you are interested in participating and/or hosting such an event, please contact Debra Funakoshi.

## The Editor's Corner

It is somewhat fitting that this is the first edition of the *POS News* edited by yours truly as the Pleurothallid family has become a rapidly growing part of my own orchid collection of late, as paltry as that collection still is. As such, I am very much looking forward to Betty Kepez's presentation at this month's meeting.

Since joining POS last year, I have learned much from the culture classes and excellent speakers. Although I have owned orchids for several years, I am only recently starting to become more confident in calling my hobby 'orchid growing' (as opposed to the previously much more appropriate 'orchid purchasing and slowly killing'). I am particularly drawn to fragrant plants and the challenges of growing different species in the backyard of my Carlsbad home.

In taking over the responsibilities for the monthly *POS News* from Melana Davison, I obviously am attempting to fill some very large shoes: Melana has been at this for more than 10 years and her dedication, skill, and orchid-knowledge showed in every edition. I am humbled to continue her work and I know I will need take her up on her kind offer to help in the months to come. Your own comments and suggestions are of course very much welcome and I invite you to either track me down at the meetings or send them to [newsletter@palomarorchid.org](mailto:newsletter@palomarorchid.org).

## POS Officers

**Gil Ho — President**  
**Alex Nazdan & Renate Schmidt — 1st Vice President**
